The National Common Minimum Programme (NCMP) states that irrigation will receive the highest investment priority and all on-going projects will. be completed according to a strict time schedule and that water management in all its aspects, both for irrigation and drinking purposes will receive urgent attention. Due emphasis has been laid on development of water resources particularly for providing drinking water to all sections including urban and rural areas in the NCMP. The Government of India provides Central assistance to the State Governments for completion of on-going irrigation projects under the Accelerated Irrigation Benefit Programme (AIBP). The AIBP criteria have been relaxed and procedures simplified to cover more projects under this programme.
